

**Oxurion NV Announces Initiation of Equity Analyst Coverage by
 H.C. Wainwright with a “Buy” Recommendation**

Leuven, BE, Boston, MA, US – November 4, 2021 – 07.00 AM CET – [Oxurion NV](#) (Euronext Brussels: OXUR), a biopharmaceutical company developing next generation standard of care ophthalmic therapies, with a clinical stage portfolio in vascular retinal disorders, announces that H.C. Wainwright has initiated analyst coverage.

H.C. Wainwright initiated coverage of Oxurion NV with a “Buy” rating and a price target of €5. H.C. Wainwright joins Roth Capital as the second US bank covering Oxurion.

The H.C. Wainwright coverage initiation follows Oxurion achieving two important recent corporate milestones:

- Announcing topline positive data from Part A of the Company’s Phase 2 study of THR-149, a plasma kallikrein inhibitor, for the treatment of patients with Diabetic Macular Edema (DME) who respond suboptimally to anti-VEGF therapy
- The start of the Phase 2 clinical study evaluating THR-687, a pan RGD integrin antagonist, in patients with DME.

All reports on Oxurion prepared by analysts represent the views of those analysts and are not necessarily those of Oxurion. Oxurion is not responsible for the content, accuracy, or timelines provided by analysts.

A copy of the full analysts’ note can be obtained directly from the banks.

By referring to these analysts or distributing their opinions, Oxurion does not in any way commit itself to the validity of such information, conclusions or recommendations.

About Oxurion

Oxurion (Euronext Brussels: OXUR) is a biopharmaceutical company developing next generation standard of care ophthalmic therapies, which are designed to better preserve vision in patients with retinal vascular disorders including diabetic macular edema (DME), the leading cause of vision loss in diabetic patients worldwide as well as other conditions, including wet age-related macular degeneration (AMD) and retinal vein occlusion (RVO).

Oxurion is aiming to build a leading global franchise in the treatment of retinal vascular disorders based on the successful development of its two novel therapeutics:

- THR-687 is a highly selective pan-RGD integrin antagonist that is initially being developed as a potential first line therapy for DME patients. Positive topline results in a Phase 1 clinical study assessing THR-687 as a treatment for DME were announced in 2020. Oxurion is currently conducting a Phase 2 clinical trial ("INTEGRAL") evaluating THR-687 in patients with DME. THR-687 also has the potential to deliver improved treatment outcomes for patients with wet AMD and RVO.
- THR-149 is a potent plasma kallikrein inhibitor being developed as a potential new standard of care for the 40-50% of DME patients showing suboptimal response to anti-VEGF therapy. THR-149 has shown positive topline Phase 1 results for the treatment of DME. The company is currently conducting a Phase 2 clinical trial ("KALAHARI") evaluating multiple injections of THR-149 in DME patients previously showing a suboptimal response to anti-VEGF therapy. Following positive data from Part A of this Phase 2 study (dose selection), the Company has initiated Part B of the study.

Oxurion is headquartered in Leuven, Belgium, and is listed on the Euronext Brussels exchange under the symbol OXUR. More information is available at www.oxurion.com.

Important information about forward-looking statements

Certain statements in this press release may be considered “forward-looking”. Such forward-looking statements are based on current expectations, and, accordingly, entail and are influenced by various risks and uncertainties. The Company therefore cannot provide any assurance that such forward-looking statements will materialize and does not assume an obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or any other reason. Additional information concerning risks and uncertainties affecting the business and other factors that could cause actual results to differ materially from any forward-looking statement is contained in the Company’s Annual Report. This press release does not constitute an offer or invitation for the sale or purchase of securities or assets of Oxurion in any jurisdiction. No securities of Oxurion may be offered or sold within the United States without registration under the U.S. Securities Act of 1933, as amended, or in compliance with an exemption therefrom, and in accordance with any applicable U.S. state securities laws.
